

Generator 1 trip at 1 s Bus 1 · three-phase voltage · event zoom

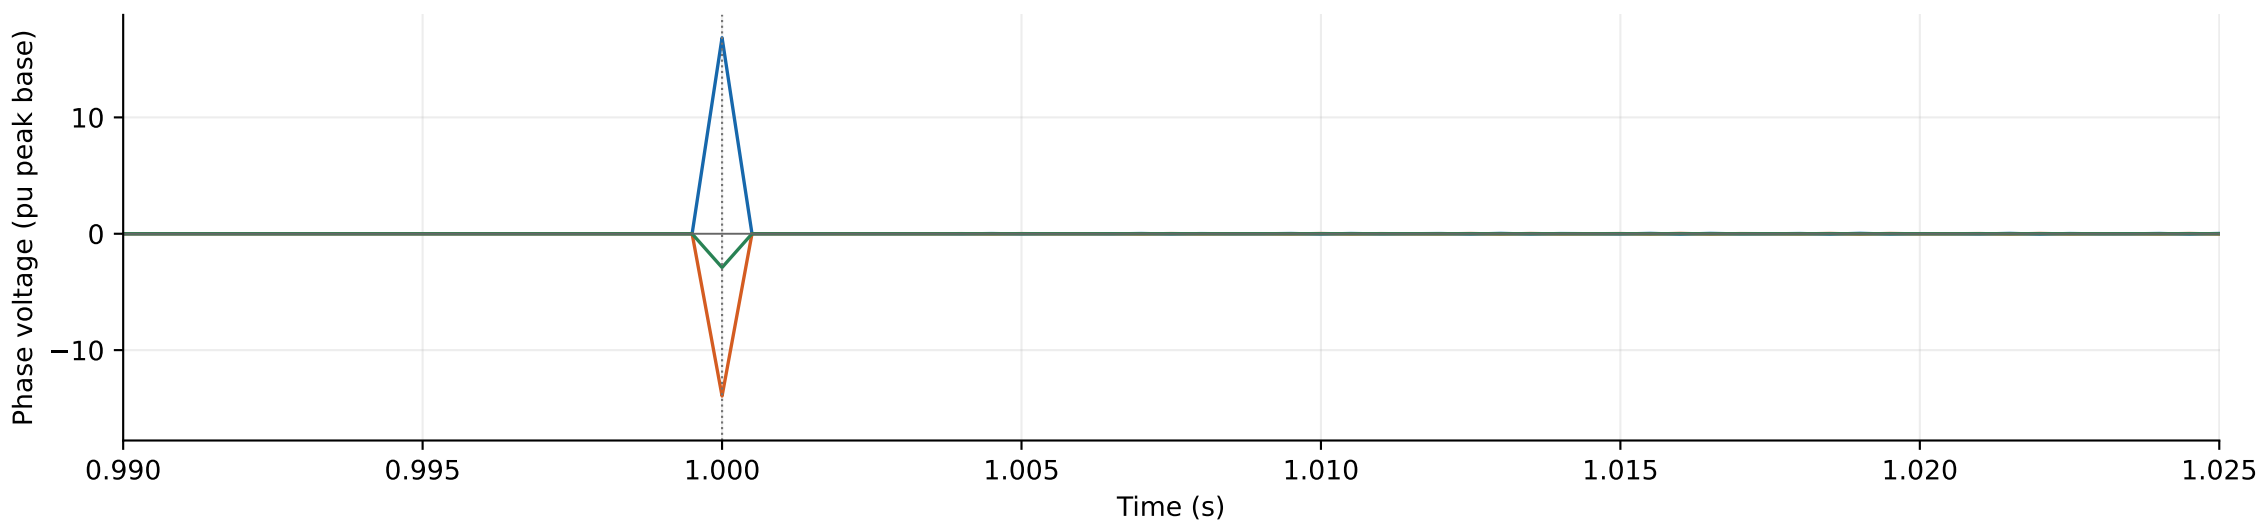

ParaEMT · 12.5 μ s integration step · native samples near trip

GridKit · IDA tolerance 1e-9

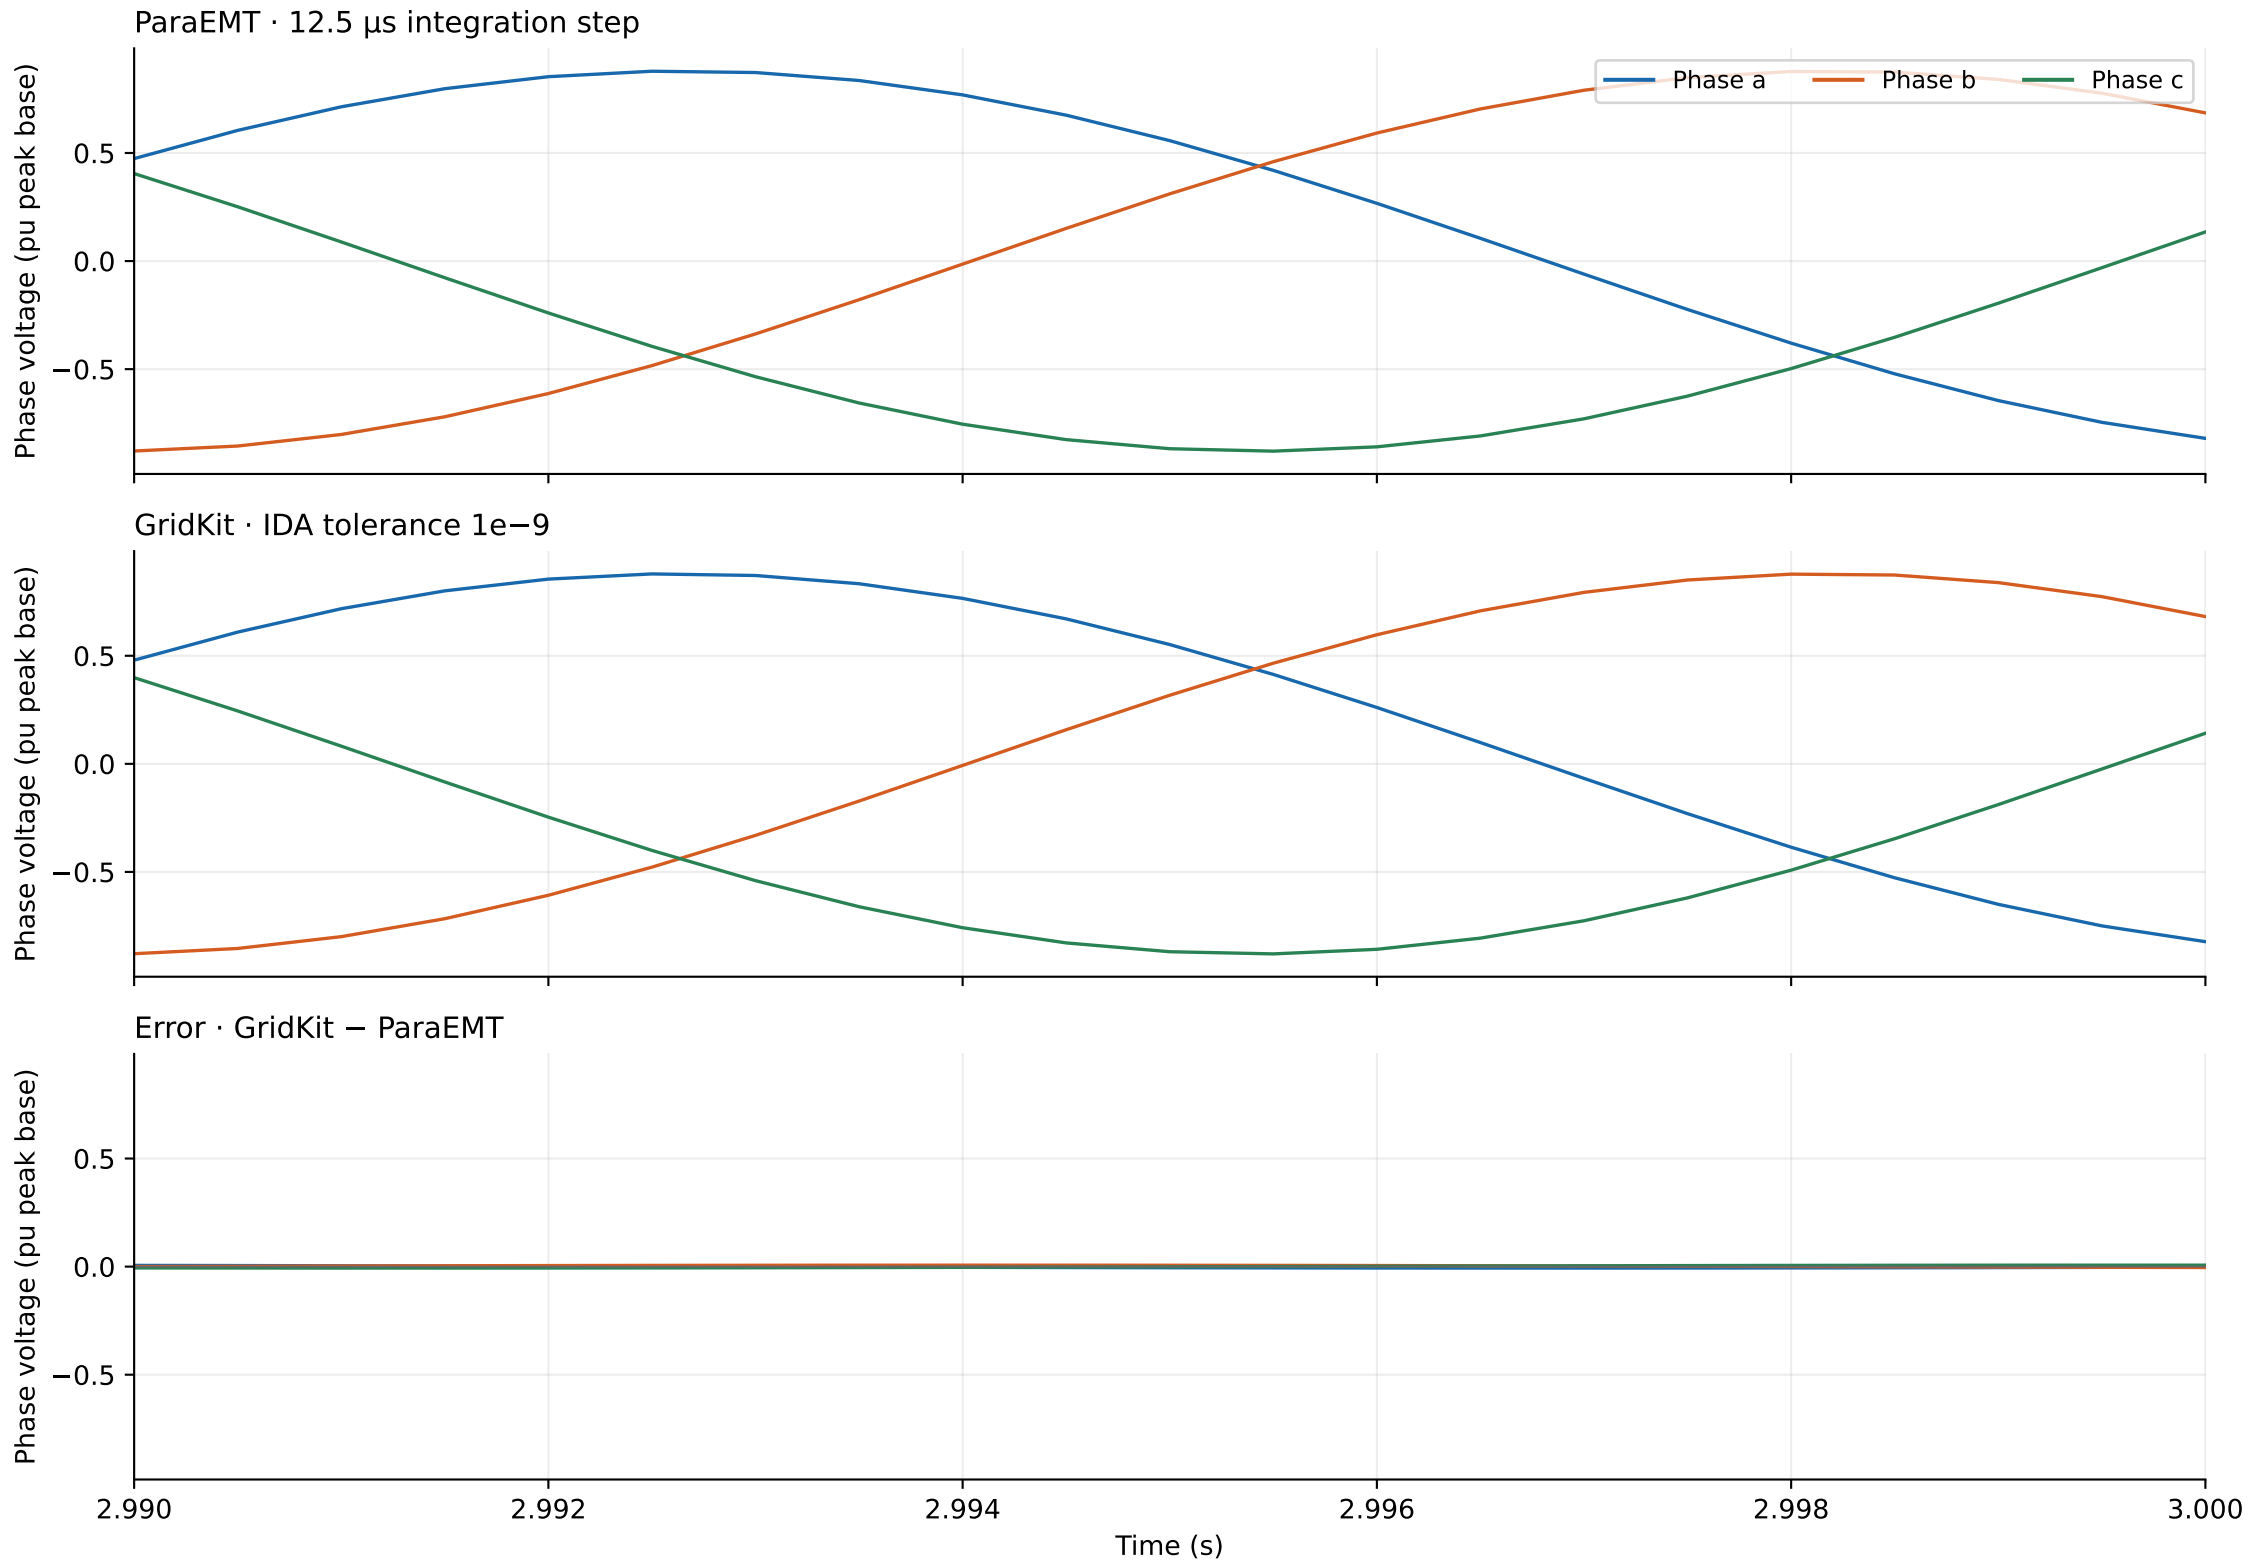

Error · GridKit - ParaEMT

Identical x/y scales in all three panels. Error at common 0.5 ms samples; no time shift or error magnification.
ParaEMT shows every integration step from 0.995 to 1.015 s, with 0.5 ms samples outside that interval.
GridKit t=1 is the left limit; ParaEMT includes its trip step. GridKit does not assign a finite voltage-impulse amplitude.

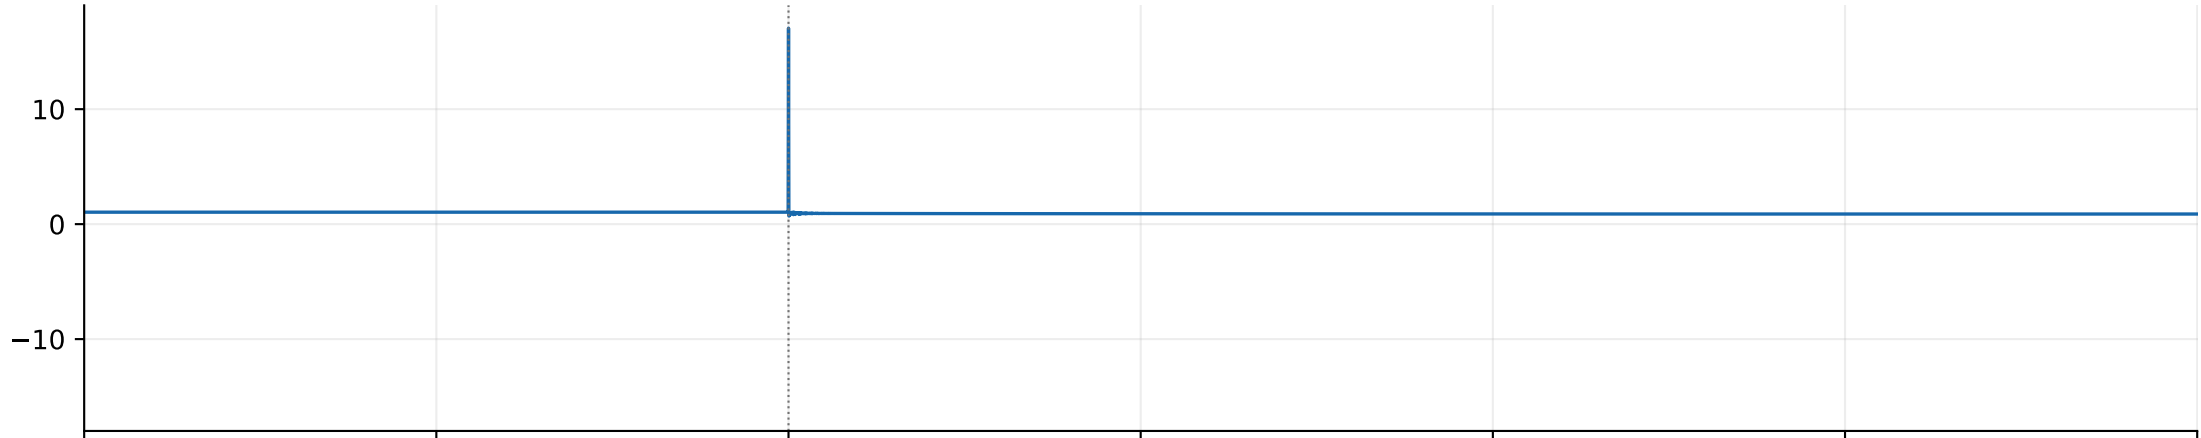

Generator 1 trip at 1 s Bus 1 · three-phase voltage · late waveform

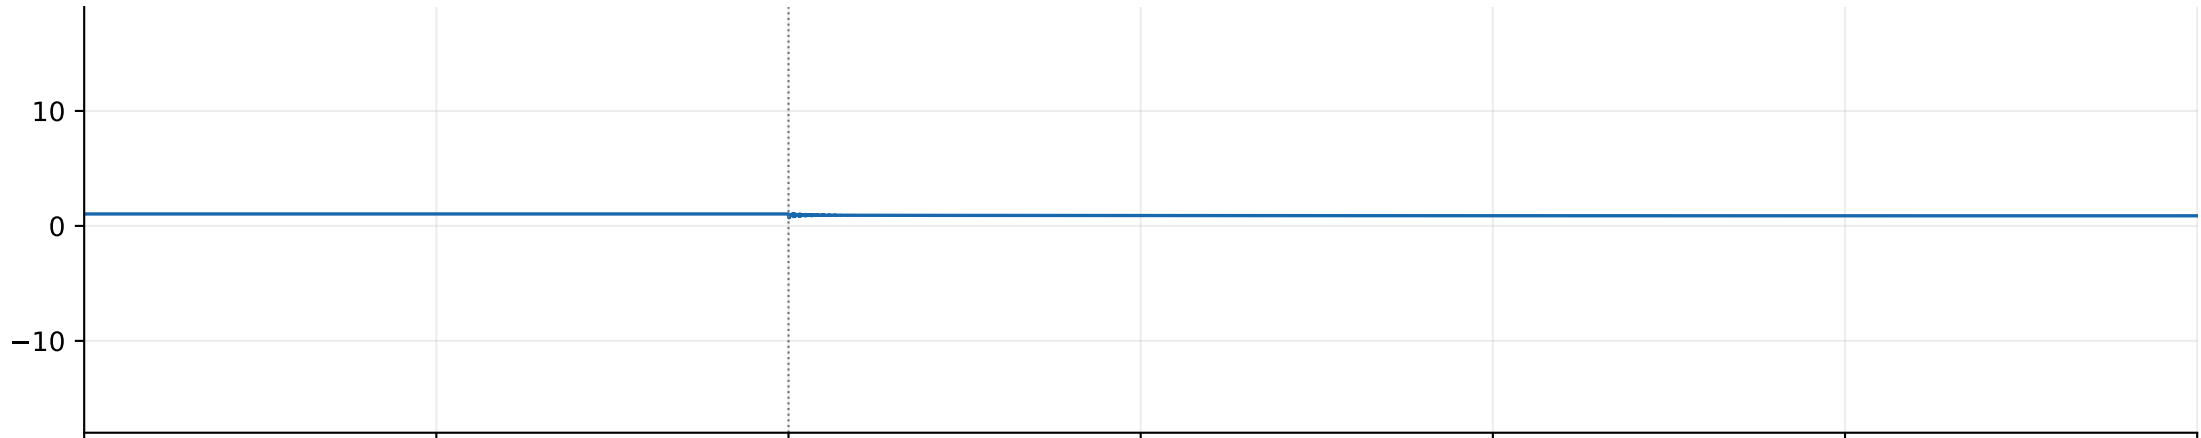

Identical x/y scales in all three panels. Error at common 0.5 ms samples; no time shift or error magnification.
GridKit t=1 is the left limit; ParaEMT includes its trip step. GridKit does not assign a finite voltage-impulse amplitude.

Generator 1 trip at 1 s Bus 1 · voltage magnitude · full
